Mr Callum Firth
Planning Officer – Post Approval
Department of Planning, Industry & Environment
Locked Bag 5022
Parramatta
NSW 2124

Dear Mr Firth,

Project Approval MP10_0156 - Collector Wind Farm: Condition A8D: Commencement of Operations

Condition A8D of the Project Approval for the Collector Wind Farm requires the following:

Prior to the commencement of construction, operation and / or decommissioning of the project, the Proponent shall notify the Department in writing of the date of commencement.

If the construction, operation and/or decommissioning of the project is to be staged, then the Proponent must notify the Department in writing prior to the commencement of the relevant stage, and clearly identify the development that would be carried out during the relevant stage.

I am pleased to confirm that, following completion of relevant construction and commissioning activities, the operations phase of the project will commence on Thursday 20th May 2021.

In regards to related conditions of approval, I note that final approval by the Department has been given for the required management plans under conditions E19 and E20; and that the pre-operations compliance report (as required under condition C7) is being finalised and is expected to be submitted to DPIE by Fri 14th May 2021.

As with other project data, I note that copies of all this documentation has been, or will be, uploaded to the Collector Wind Farm website (www.collectorwindfarm.com.au), to ensure public access consistent with the requirements of condition C6.

Yours sincerely,

Neil Weston
