

TERRAIN SOLAR

RATCH-Australia Corporation

Media Release

22 October 2022

New partnership brings more renewable energy projects to fruition

Terrain Solar is very pleased to announce that they are partnering with RATCH-Australia Corporation (RAC) to develop the Marulan Solar Farm and Maison Dieu Solar Farm projects, both located in regional New South Wales.

Each of these projects will involve utility scale solar farms, and integrated battery energy storage systems (BESS), to help NSW on its crucial rapid decarbonisation transition journey to meet the State's net-zero emissions targets.

Terrain Solar is an Australian owned and operated business that is developing innovative and strategically located solar farms across regional Australia. From initially locating suitable land and partnering with landowners, the team at Terrain take projects through engineering design, planning approval, grid connection, financing & investment stages and into construction and operation.

Terrain brings together industry leaders with a strong track record in the development of large-scale renewable energy projects. The team have collectively developed over 2,000 megawatts of renewable energy projects across Australia, South Africa and the Pacific Region.

RAC is part of the RATCH Group, a publicly listed Thai based global Independent Power Producer (IPP), with a vision of being a leading value-oriented energy and infrastructure company in the Asia Pacific region. RAC has developed, constructed and operated energy projects throughout Australia for more than 10 years. It currently owns and operates a portfolio of energy generation assets with a capacity of more than 1.2GW.

RAC and Terrain intend to work together on the development of the projects. RAC will construct, own and operate the Marulan and Maison Dieu Solar Farms for their 25-year lifespan, including the development and installation of the BESS at both sites.

Considering RAC's experience in developing renewable energy projects in Australia, their proven track record as a great corporate citizen, RATCH-Australia make an ideal owner of these Terrain Solar projects which are certain to deliver benefits to the local community and the energy sector as a whole.
